Actrol:
Your best
solution at
ARBS

ARBS is the major trade event for the Air Conditioning and Refrigeration industries in the southern hemisphere. Held every two years ARBS showcases the very latest technologies, products and trends in a relaxed friendly atmosphere.

Melbourne '04 was big but
...Sydney '06 will be better!!
Visit Actrol at Stand 190!

Actrol at ARBS 2006 will feature new and innovative product and service solutions. Actrol will display its extensive product range and brand diversity by presenting the best solutions in refrigeration and air conditioning with partners in Australia and from around the world with names such as Arkema, Tecumseh Europe/L'Unite Hermetique, Acpac, Carel, Crane Enfield, Emerson Climate Technologies Flow Controls, Fasco, Castel, Honeywell, Brema, Refco, Hobo, Sauermann, Rothenberger, Soler Palau, Inficon and Fluke.

In 2006, Actrol will display a mixture of new and traditional technology including:

- A diverse range of packaged condensing units including the new single phase Acpac;
- New refrigerant management solutions;
- The latest in tools from Refco, Inficon and Fluke;
- Components by world-renowned manufacturers Castel and Emerson Climate Technology;
- Extensions to the Actrol cabinet cooler range;
- The diverse range of compressors from Tecumseh, Bitzer, Copeland and Siam;

Visit the Actrol stand at ARBS between the 14th and 16th of August at the Sydney Convention & Exhibition Centre, Darling Harbour to see what's new in your industry. While you are there have a coffee with Actrol staff and our overseas partners, many of whom are visiting Australia especially for ARBS06.
