www.polyslab.com.au

Also available for:

Hot Water Systems, Swimming Pool Equipment,
Camping Equipment

INSTALLATION RECOMMENDATIONS

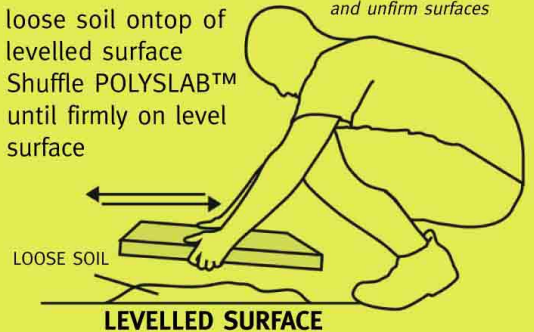

- 1) Level uneven surface and ensure footing is firm

- 2) THIS STEP OPTIONAL*

- a) Place a mound of loose soil on top of levelled surface
- b) Shuffle POLYSLAB™ until firmly on level surface

**This step is not necessary, however it is strongly recommended for increased stability, especially on loose and unfirm surfaces*

- 3) Finally ensure the POLYSLAB™ product is level and firmly in place

- 4) Where bricks or other objects must be used to increase the final height, ensure that the underside of POLYSLAB™ is sufficiently supported
