Mastercella

Mastercella is a leading controller for refrigerated cold rooms. Features include:

- More space dedicated to the wiring
- Possible installation of a general switch
- Cable connection either from the top or bottom
- Clock for real time defrost
- HACCP functions
- Easy customisation thanks to the removable front plastic particulars

Cold Watch Person Trapped Alarm

The trapped personnel alarm kit is a safety system for cool rooms and freezer rooms. It allows personnel trapped inside the cold room to call for help by pressing an emergency button and thus activating the audible signal-warning light on the control panel outside.
